

“Altona at Night”

In 2015 Brandi decided she wanted to do something to assist the new refugee families that were moving to Altona. With support from her friend Katherine, she attended the Regional Adult Education Centre once a week and worked hard creating, writing and taking pictures for a book for new families. Brandi wrote a book called "Altona at Night" that would assist the new families to find businesses in town.

In April 2016 after all of her hard work, Brandi finally received copies of her finished book from RAEC and decided she would give copies to all the schools and Regional Adult Education Centre.

On June 23rd at an award ceremony at RAEC, Brandi received a certificate for her community service and also earned one credit for her work and commitment to helping her community!

Great job Brandi, you worked hard at writing and creating "Altona at Nights" to assist your community.
